

# All Cell Detox

100 capsules, Herbal Combination, Stock No. 1078-2

**C**leansing and detoxification of the body promote good health and general well-being.

Herbs can be used to nourish and cleanse the body, especially the body systems that are heavily involved with metabolic processes. All Cell Detox combines 17 herbs that support proper digestion and waste elimination. This formula supports and promotes the proper functioning of the liver, colon and kidneys, aids digestion and supports the absorption of nutrients.

All Cell Detox is an improvement on the SP#1 formula, stock # 1079-0. Once SP#1 has sold out, it will be discontinued and All Cell Detox will be its permanent replacement.

## Did you know?

The digestive system feeds the entire body and must flow freely to ensure the efficient elimination of toxins from the body. The colon, in particular, must function properly to promote the elimination of waste materials from the body. The liver and kidneys are also important detoxifying organs. The liver aids in the digestive process by secreting bile that emulsifies fat, and also controls the metabolism of various nutrients and serves as a reservoir for many of these nutrients. The kidneys act as a filtration system during the production of urine. All Cell Detox contains

herbs that help cleanse and detoxify these organs.

## NSP Advantage

100 capsules. Herbal combination to support digestion and waste elimination functions of the body.

**Ingredients:** Each capsule contains a blend of 475 mg of the following: Medicinal Ingredients: Gentian (*Gentiana lutea*) root and rhizome; Irish moss (*Chondrus crispus*) plant; Cascara sagrada (*Rhamnus purshiana*) bark; Fenugreek (*Trigonella foenum-graecum*) seed; Goldenseal (*Hydrastis Canadensis*) root and rhizome; Slippery Elm (*Ulmus fulva*) bark; Safflower (*Carthamus tinctorius*) flowers; Black walnut (*Juglans nigra*) hulls; Parthenium (*Parthenium integrifolium*) root; Myrrh gum (*Commiphora mol-mol*) stem; Yellow dock (*Rumex crispus*) root; Dandelion (*Taraxacum officinale*) root; Oregon grape (*Berberis aquifolium*) root and rhizome; Uva ursi (*Arctostaphylos uva-ursi*) leaves; Chickweed (*Stellaria media*) herb; Catnip (*Nepeta cataria*) herb; Cyani (*Centaurea cyanus*) flowers.
