

# Aloe Vera Juice

946 mL, Herbal Beverage, Stock No. 1680-4

**A**loe Vera has been used for ages for its many healing properties. Ancient Egyptian medical writings indicate the use of aloe vera for healing infections and wounds, skin problems, and as a laxative.

Even today, Ayurvedic physicians use aloe for intestinal worms, menstrual problems, and skin ulcers.

Aloe vera is a source of over 200 nutritional substances.

## *Did you know?*

There are about two hundred species of this amazing plant, but the aloe vera, meaning “true aloe” in Latin, is considered the most effective healer.

Two thousand years ago, the Greek physician Dioscorides wrote that aloe vera was an effective treatment for everything from constipation to burns to kidney ailments.

## *NSP Advantage*

946 mL. Herbal Beverage.

*Ingredients:* 99.42% aloe vera (*Aloe barbadensis*) juice (purified water, aloe vera gel, sodium benzoate, potassium sorbate), 0.35% citric acid, 0.12% potassium sorbate, and 0.10% sodium benzoate. Aloe Vera juice is a fresh liquid concentrate juice from the inner leaf of *Aloe barbadensis* Mill. and related species which are organically grown. Has naturally-occurring amounts of soluble fibre, selenium, and vitamin C.

*Recommendation:* For best results, drink 60-170 mL each day. Drink this refreshing vegetable juice with meals, as is, or mix with fruit or other vegetable juices.

Note: The aloe used in this product has been approved by the International Aloe Science Council.

## Features & Benefits

- Aloe has been used traditionally as early as the 4th century B.C. to improve digestion.
- Taken internally, aloe is a purgative and has been used to cleanse the bowels and relieve constipation.
