

Artemisia Combination

100 capsules, Herbal Combination, Stock No. 787-6

Artemisia Combination is an herbal intestinal parasite cleanser containing the powerful “exterminating” benefits of mugwort (*Artemisia vulgaris*) and wormwood (*Artemisia annua*).

Did you know?

Several types of parasitic worm and their larvae can live inside human intestines, blood, the lymphatic system, bile ducts, or organs, such as the liver. Worms are more common than many people realize, and can live within the system for years without a person realizing it. Worms can cause severe reactions, including chronic and debilitating illnesses.¹

NSP Advantage

100 capsules. Herbal combination.

Ingredients: 425 mg combination of elecampane (*Inula helenium*) root, mugwort (*Artemisia vulgaris*) herb, cellulose, spearmint (*Mentha spicata*) herb, turmeric (*Curcuma longa*) root, ginger (*Zingiber officinale*) root, garlic (*Allium sativum*) bulb, clover (*Eugenia caryophyllata*) flower buds, wormwood (*Artemisia annua*) herb, magnesium stearate, and silicon dioxide.

Recommendation: Take two capsules with a meal three times daily.

Features & Benefits

- Artemisia has traditionally been used to expel parasites and worms, to improve digestion and elimination, and to relieve abdominal cramping. Traditional uses of some of the other ingredients in this formula include:
- Wormwood – a nervine tonic useful in digestive difficulties.
- Mugwort – used to alleviate nervous conditions. Mugwort has been used traditionally to stimulate the secretion of gastric juices and to relieve flatulence and feelings of distension.
- Spearmint – a stimulant, carminative and antispasmodic herb used for indigestion.
- Turmeric has been used traditionally as an anti-inflammatory and to relieve stomach complaints such as nausea, cramping and flatulence.
- Ginger – used to provide relief from nausea and dyspepsia; a stimulant and carminative herb. Also helps relieve digestive upsets/disturbances including flatulence, spasm indigestion and constipation.
- Garlic – valued for its antibiotic properties. Garlic helps treat bacterial and fungal infections and helps maintain cardiovascular health.
