

Astragalus

100 capsules, Single Herb, Stock No. 40-1

Chinese astragalus root has been used to optimize immune function and as a tonic to build stamina. In Asia, astragalus root is sold in dry slices up to a foot long. Ancient Chinese texts record the use of astragalus for tonifying the spleen, blood and chi.

Did you know?

Astragalus contains several beneficial compounds. These include saponins, sterols, isoflavones and polysaccharides. Research shows that astragalus has immunostimulatory properties. It seems to encourage the development of active immune cells. It appears that this herb helps trigger immune cells from a «resting» state into heightened activity.
