

Arginine Plus

NPN 80026419, Cardiovascular Health Supplement

Bulk powder, Stock No. 8200-3, 377g / 8201-4, 1887g

Arginine Plus was formulated in collaboration with leading L-arginine researchers and cardiovascular specialists who have conducted pioneering research in the proper application of L-arginine in promoting cardiovascular health. Each dose contains 6,000 mg (6 grams) of the highest quality L-arginine, which has been validated as a therapeutic agent by thousands of scientific clinical studies. Often referred to as the “miracle molecule,” L-arginine has potent health-enhancing properties.

Did you know?

The efficacy of L-arginine as a therapeutic agent has been demonstrated in thousands of scientific clinical studies. The remarkable properties of L-arginine were validated when the 1998 Nobel Prize in Medicine was awarded to the researchers who discovered its signalling properties within the cardiovascular system.

L-arginine is best known for its cardiovascular benefits. In the body, L-arginine is converted to nitric oxide, which helps relax the blood vessels and improve blood flow to critical organs. This reduces stress on the heart and helps improve circulation.

L-arginine is the body’s major source for nitric oxide synthesis, and studies show that L-arginine aids in maintaining healthy blood pressure levels, helps improve immune function, and stimulates the release of human growth hormone (HGH). It may also boost energy levels, help to build muscle, and reduce adipose tissue (body fat).

Arginine Plus is a unique product with far-reaching health benefits, and powerful support for the cardiovascular system. With

Arginine Plus, you’re giving your body the support necessary for a long, healthy life.

NSP Advantage

Cardiovascular health supplement in a unique formula bulk powder, containing key supporting ingredients and with a delicious mixed berry flavour. Comes in two sizes: small jar (377 g, containing 30 doses), and family size jar (1887 g, containing 150 doses).

Ingredients: Medicinal Ingredients: Each rounded scoop (12.5 g) contains L-arginine 6000 mg; L-citrulline 270 mg; Vitamin C 60 mg; Resveratrol 12.5 mg (*Polygonum cuspidatum* [giant knotweed] root); Vitamin B6 (pyridoxine hydrochloride) 2 mg; folic acid 400 mcg; Vitamin D3 25 mcg (1000 IU); Vitamin K2 20 mcg (contains sodium casein, a milk derivative); Vitamin B12 (cyanocobalamin) 6 mcg. Non-medicinal ingredients: citric acid, xylitol, pomegranate (*Punica granatum*) flavour, DL-malic acid, natural citrus sweetener (inulin, fructose, natural flavours), silicon dioxide, citrus blend natural flavour (maltodextrin, gum Arabic [*Acacia Senegal*], ethanol, and orange, lemon, lime, tangerine, and vanilla flavours, silicon dioxide), huckleberry flavour blend (maltodextrin, natural flavour, silicon dioxide), D-ribose, stevia (*Stevia rebaudiana*) leaf extract, grape skin (*Vitis vinifera*) extract.

Recommendation: Helps support healthy cardiovascular function.

Dosage (adults): Mix one rounded scoop (12.5 g) with 4-8 ounces of water, stir to dissolve and drink. For use beyond a duration of 6 weeks, consult a health care practitioner.

Arginine Plus, continued

NPN 80026419, Cardiovascular Health Supplement

Bulk powder, Stock No. 8200-3, 377g / 8201-4, 1887g

Cautions and Warnings: Consult a health care practitioner prior to use if you are pregnant or breastfeeding, if you have a renal/kidney disease, are following a low protein diet or are taking medication for cardiovascular diseases, erectile dysfunction, and/or blood thinners. Consult a health care practitioner prior to use if you suffer from a cardiovascular disease and are attempting an increase in physical activity or if your cardiovascular condition worsens.

Contraindications: Do not use if you have had a heart attack/myocardial infarction.

Known Adverse Reactions: Some people may experience gastrointestinal discomfort (such as diarrhea).

Features & Benefits

- Helps support healthy cardiovascular function.
- Enhances blood flow to vital organs.
- Combats the negative effects of premature cardiovascular aging.
- Helps maintain healthy blood pressure and blood sugar levels.
- May help promote energy levels.
