

# BP

100 capsules, Herbal Combination, Stock No. 799-7

**B**P is one of Nature's Sunshine's first herbal combinations introduced to the Canadian market in the late 70's.

BP contains some of the best alternatives Mother Nature has to offer, including burdock, yellow dock, dandelion, licorice, red clover, golden seal, yarrow, and sarsaparilla.

This formula improves the body's detoxifying and eliminating processes. Much of BP's action is focused on the liver, lymphatic, and immune systems, as well as the skin.

### *Did you know?*

Alternatives are herbs which alter (purify) the blood. Most herbs for blood purification promote the cleansing action of the spleen, liver, kidneys and bowels. These herbs should be used over a long period of time, allowing gradual detoxification of the entire blood stream which in turn, will improve digestion, assimilation and glandular secretions.

Of course, bad habits and poor diet must be corrected to remove the cause of toxicity of the blood. Infections, cancer, arthritis and

skin disease are some of the diseases caused by impure blood.
