

CA-ATC

50 capsules, Concentrated Herbal combination, Stock No. 827-4

CA-ATC Concentrated is an herbal source of calcium and a sedative formula.

This combination containing alfalfa and other herbs high in mineral and trace minerals has also proven its effectiveness as a carminative and antispasmodic.

Did you know?

Many regular users of this formula have noticed a positive change in their structural system. This may be due to the presence in this formula of all the macro- and micro-minerals needed to build a healthy and strong structural system, rather than being due to the naturally-occurring calcium in CA-ATC.

NSP Advantage

50 capsules. Concentrated Herbal Combination.

Ingredients: 405 mg combination of CA Solid Extract (Alfalfa Herb [*Medicago sativa*], Marshmallow Root [*Althea officinalis*], Slippery Elm Bark [*Ulmus rubra*], Oat Straw [*Avena sativa*], Irish Moss Plant [*Chondrus crispus*], Thyme herb [*Thymus vulgaris*], Passionflower herb [*Passiflora incarnate*], Corn syrup solids), alfalfa herb, marshmallow root, slippery elm bark, oatstraw stem, Irish moss plant, thyme herb, and passion flower herb concentrates. ATC is an ancient traditional concept whereby herb extracts are concentrated and carried on the herb fibre from which it was extracted. CA-ATC contains four times the nutrient value of Herbal CA. High in calcium, magnesium, silicon, and vitamins A and C.

Recommendation: Take one capsule with a meal twice daily.

Features & Benefits

- Enhances the absorption of calcium.
- Calcium is a factor in the maintenance of bones and teeth, especially in infancy and childhood.
- Calcium has been studied for its possible role in helping prevent osteoporosis and in relaxing muscle spasms and cramps.
- A deficiency in calcium may lead to osteoporosis, as the body will remove calcium stored in the bones to support other metabolic processes that require this mineral.
- Contains herbs traditionally used to enhance digestion.
