

# Caprylic Acid Combination

90 capsules, Herbal combination, Stock No. 1808-2

Caprylic Acid Combination is designed to help fight *Candida albicans* and relieve the symptoms of an overabundance of this yeast in the body.

The capsules are enteric-coated so ingredients will not be dissolved until they reach the intestinal tract. Each capsule provides caprylic acid along with the benefits of other parasite-fighting herbs.

## *Did you know?*

Caprylic acid is a naturally occurring fatty acid found in coconut oil, which works at the primary level of the gastrointestinal tract. It is comparable in its antifungal activity to the prescription drug, nystatin.<sup>1</sup>

## *NSP Advantage*

90 capsules. Herbal Combination.

*Ingredients:* 400 mg combination of the finest caprylic acid, elecampane (*Inula helenium*) root, black walnut (*Juglans nigra*) hulls, and red raspberry (*Rubus idaeus L.*) leaves.

*Recommendation:* Take two capsules with a meal twice daily.
