

Cat's Claw Combination

100 Capsules, Herbal combination, Stock No. 175-0

From deep in the rain forests of Peru comes a truly remarkable herb known as Cat's Claw, or Uña de Gato in Spanish. It has been used by the Peruvian natives for centuries in a variety of applications. Cat's Claw may be one of the Amazon's most impressive health-promoting gifts.

Cat's Claw is the key herb in this combination enhanced with astragalus and echinacea purpurea. Cat's Claw is known as the best immune herb from South America, while astragalus is the best immune herb from Asia, and echinacea purpurea the best immune herb from North America. No wonder Cat's Claw Combination is Nature's Sunshine's most potent immune-building formula.

Did you know?

Dr. Brent Davis, who had become fascinated with Cat's Claw long before it emerged as a natural health supplement refers to *Uncaria tomentosa* as "the opener of the way" refer-

ring to its unique ability to detoxify the intestinal tract and to treat a variety of stomach and bowel disorders.

In 1988, an international congress was held in Lima, Peru to share information on traditional Peruvian therapies. Several physicians lauded Cat's Claw and one specifically cited his use of the herb to successfully treat 14 types of confirmed cases of cancer in 700 patients between 1984 and 1988.
