

Feverfew, High Potency

60 capsules, Single herb, Stock No. 288-1

Feverfew (*Chrysanthemum parthenium*) is one of the few natural analgesics used to treat most of the same disorders as aspirin.

High Potency Feverfew provides six times more parthenolides—its primary active ingredient—per capsule than the regular feverfew supplements sold on the market.

Did you know?

It is estimated that 30 million North Americans suffer from migraine headaches on a regular basis.

For unknown reasons, migraine headaches are three times more common in women than in men. Most migraine sufferers (about 60 percent) experience their first attack before the age of twenty.

NSP Advantage

100 capsules. Single Herb.

Ingredients: Feverfew (*Chrysanthemum parthenium*) herb and leaf with a guaranteed-potency of 900 mcg of parthenolides. Other ingredients: dicalcium phosphate, cellulose, silicon dioxide, magnesium stearate. Feverfew contains naturally-occurring amounts of chromium, magnesium, manganese, niacin, phosphorus, potassium, selenium, and thiamin.

Recommendation: Take one capsule daily with a meal.

CAUTION: Pregnancy & Nursing.
