

# GraPine, High Potency

60 tablets, Herbal combination, Stock No. 1699-3

Nature's Sunshine's High Potency GraPine contains as much as 3 times as many proanthocyanidins as other competitive products. Proanthocyanidins (PACs) are considered a highly bioavailable water-soluble class of flavonoids with unparalleled antioxidant activity. PACs have been found to be 50 times stronger than vitamin E and 20 times stronger than vitamin C as antioxidants. PACs are capable of crossing the blood-brain barrier and can remain in the bloodstream up to 72 hours to protect the brain and central nervous system against free radical damage.

## *Did you know?*

High Potency GraPine is derived from the bark of a select pine tree and grape seed. Nature's Sunshine uses authentic Masquelier OPC grape seed extract in its High Potency GraPine.

## *NSP Advantage*

60 tablets. Herbal Combination  
Proanthocyanidin supplement.

*Ingredients:* Dicalcium phosphate, cellulose, grape seed (*Vitis vinifera*) extract, stearic acid, silicon dioxide, magnesium stearate, pine bark extract.

*Recommendation:* Take one milligram of proanthocyanidin per pound of body weight daily. A 120-pound person should take 120 mg of proanthocyanidins daily. In this example, you would take two tablets of High Potency GraPine daily in addition to a meal.

## Features & Benefits

- Superior antioxidant capacity neutralizes free radicals effectively.
- Each capsule contains 60 mg of GraPine proanthocyanidin complex from grape seed extract and pine bark extract.
- Provides nutritional support to the circulatory system, particularly the capillaries.
- Grape seed extract yields specific antimicrobial, immuno-stimulating, and liver-protecting properties. Grape seed extract contains a concentration of 95% proanthocyanidins.
- Pine bark extract contains a rich supply of proanthocyanidins, as well as other water-soluble nutrients. Pine bark extract yields a concentration of 85% proanthocyanidins.
