

Herbal Pumpkin

100 capsules, Herbal combination, Stock No. 914-5

Herbal Pumpkin supports the intestinal system and its various functions. The intestinal system can be home to unwanted parasites. This herbal combination contains pumpkin seeds and black walnut to help nourish and strengthen the intestinal tract against parasite infestation.

Did you know?

The presence of parasites may trigger no recognizable symptoms, or may cause local irritations, especially at the anus. Parasites may also cause weakness, fatigue, lack of vitality, grinding of teeth at night, loss of appetite, irritability, frequent colds, brittle and hard fingernails with ridged longitudinal lines, anemia, and loss of weight.

As with any infection, parasites develop best if the immune function is weakened. Those who eat diets of refined carbohydrates and sugar are going to be more susceptible. Therefore, increasing immunity of the host is invaluable in dealing with parasites long-term.¹

NSP Advantage

100 capsules. Herbal combination.

Ingredients: 490 mg combination of the finest pumpkin (*Cucurbita pepo*) seeds, black walnut (*Juglans nigra*) hulls, Turkey rhubarb (*Rheum officinale*) root, violet (*Viola odorata*) leaves, chamomile (*Matricaria recutita*) flowers, mullein (*Verbascum thapsus*) leaves, marshmallow (*Althea officinalis*) root, and slippery elm (*Ulmus fulva*) bark.

The herbs in this formulation contain naturally-occurring amounts of chromium, magnesium, phosphorus, selenium, vitamins A and C, and zinc.

Recommendation: Take two or three capsules with a meal three times daily.

CAUTION: Pregnancy & Nursing.
