

# Olive Leaf Extract

60 capsules, Single herb, Stock No. 204-7

**O**live Leaf Extract is a natural way to support the immune and circulatory systems.

It specifically enhances the immune system with its powerful neutralizing constituents, without harming beneficial bacteria.

Olive Leaf Extract contains a biologically active compound, oleuropein, which has strong antibacterial and antiviral properties.

It disrupts the growth of bacteria and viruses and also stimulates the activity of important cells in the immune system that fight infection.

## *Did you know?*

California physician James R. Privatera, M.D., describes his experience using olive leaf extract on patients with chronic viral or bacterial infections. Many of these patients had already received several courses of antibiotics, to no avail, but olive leaf extract was all it took to beat these infections.<sup>1</sup>

## *NSP Advantage*

60 capsules. Single Herb.

*Ingredients:* Olive (*Olea europa*) leaf extract (standardized to 12% Oleuropein), cellulose (plant fibre), magnesium stearate, and maltodextrin.

*Recommendation:* Take one to three capsules daily with a meal.
