

P-14

100 capsules, Herbal combination, Stock No. 1023-0

P-14 is an herbal combination designed to support the digestive and glandular systems.

P-14 is formulated to provide the nutrients needed for proper function of the prostate and pancreas.

Did you know?

Diabetes, or high blood sugar, occurs when the pancreas stops producing the hormone insulin (diabetes type I, known as juvenile diabetes), or the body becomes unable to use the insulin it produces (diabetes type II, known as adult-onset diabetes). Insulin is used by the body to make blood sugar (glucose) available to cells so that they can produce energy.

An estimated 1.3 million Canadians suffer from diabetes, with the majority (90 percent) suffering from type II diabetes. Diabetes is one of the most serious chronic diseases, a factor in more than 25,000 deaths each year in Canada. The good news is that diabetics have the power to keep themselves healthy with a few lifestyle adjustments. Consult your health care practitioner for more information.

NSP Advantage

100 capsules. Herbal Combination.

Ingredients: 450 mg combination of the finest dandelion (*Taraxacum officinale*) root, garlic (*Allium sativum* L.) bulb, golden seal (*Hydrastis Canadensis*) root, buchu (*Barosma betulina*) leaves concentrate, cedar (*Juniperus osteosperma*) berries, mullein (*Verbascum thapsus*) leaves, yarrow (*Achillea millefolium*) flowers, slippery elm (*Ulmus fulva*) bark, capsicum (*Capsicum annuum*) fruit, marshmallow (*Althea officinalis*) root, nettle (*Urtica dioica*) herb, white oak (*Quercus alba*) bark, licorice (*Glycyrrhiza glabra*) root, silicon dioxide.

The herbs in this formula contain naturally occurring amounts of chromium, iron, manganese, and silicon.

Recommendation: Take two capsules with a meal three times daily.

CAUTION: Pregnancy & Nursing.

Features & Benefits

- Relieves inflammation in the glandular system, especially the prostate and pancreas.
- May help lower blood sugar levels by helping the pancreas function properly to produce insulin.
- May help reduce pain, irritation, and swelling, particularly in mucous membranes.
- Some of the herbs in this combination may help improve digestion.
- Dandelion and buchu have both been used traditionally to stimulate urine flow.
- Dandelion root has been used traditionally to stimulate appetite and increase bile flow.
- Mullein and slippery elm are mucilaginous herbs that can soothe mucus membranes.
- Herbs in this combination have traditionally been used for diabetes, weakened pancreas, ulcers, flatulence, and acid indigestion.
- Garlic helps treat bacterial and fungal infections and helps maintain cardiovascular health.
