

Perfect Eyes

60 capsules, Herbal Combination, Stock No. 4075-0

Few of us have perfect eyes. Sunlight, artificial lighting and free radicals can all damage the ocular cells. After middle age, our natural antioxidant production decreases, and the pigments in our eyes change, exposing us to further damage.

NSP Perfect Eyes is formulated to give your eyes the antioxidant and nutritional support they need.

Did you know?

Perfect Eyes is loaded with eye-supporting nutrients. Numerous scientific studies suggest that supplementing with the ingredients in Perfect Eyes may support eye health and protect eye tissue from damage.

The two key ingredients are lutein and N-Acetyl-Cysteine (NAC). Lutein is an important antioxidant that supports the macular region of the eye. NAC promotes the production of glutathione, and also protects existing glutathione in the body. Glutathione is a key antioxidant that protects the eye from harmful free radical damage and nerve cell damage.

Perfect Eyes also contains taurine (an amino acid that protects proteins in the eye lens);

zinc and selenium (powerful antioxidant minerals that are particularly beneficial to older individuals); and quercetin and hesperidin (two bioflavonoids that act as antioxidants to protect against toxic damage to the eye).

NSP Advantage

60 Capsules Herbal Combination. This unique blend contains the most important herbs and nutrients for eye health.

Ingredients: Medicinal Ingredients: Each capsule contains: Eyebright (*Euphrasia officinalis*) herb 100 mg; hesperidin 75 mg; lutein 3 mg (extracted from Marigold [*Tagetes erecta*] flowers); zinc 7 mg (from zinc gluconate); N-Acetyl Cysteine 50 mg; Taurine 50 mg; natural source mixed carotenoids 45 mg; quercetin 26.7 mg; selenium 25 mcg (from amino acid chelate); Turmeric (*Curcuma longa*) root 5.5 mg; Bilberry (*Vaccinium myrtillus*) fruit 5 mg of a 100:1 extract standardized to 25% anthocyanosides

Non-medicinal ingredients: gelatin capsule (gelatin, water), microcrystalline cellulose.

Recommendation: Provides nutritional support for the eyes. Dosage (adults): Take two capsules daily with a meal.

Features & Benefits

- Supports total eye health.
- Fights free radical damage.
- Provides antioxidant protection for aging eyes.
- Supports the health of the macular region of the eye.
