

RE-X

DIN 02237724, 100 capsules, Traditional herbal sedative, Stock No. 1241-6

RE-X, a sedative and tranquilizing formula, is designed to support the nervous system. RE-X provides botanical sources of several nutrients including calcium.

Did you know?

RE-X does not hinder reflexes or reaction time like many chemical sedatives, as peripheral blood circulation is increased.

What makes RE-X different from HVP (Hops, Valerian, Skullcap), another sedative and tranquilizing formula, is that it contains black cohosh, an emmenagogue, which stimulates and promotes a normal menstrual flow; and wood betony, a nervine tonic, which strengthens and feeds the nervous system.

NSP Advantage

100 capsules. Traditional Herbal Sedative.

Ingredients: 440 mg combination of the finest valerian (*Valeriana officinalis*) root, 97 mg; passion flower (*Passiflora incarnate*) herb, 89 mg; black cohosh (*Cimicifuga racemosa*) root, 78 mg; hops (*Humulus lupulus*) flowers, 72 mg; catnip (*Nepeta cataria*) herb, 56 mg; wood betony (*Betonica officinalis*) herb, 48 mg, and capsicum (*Capsicum annuum*) fruit.

The herbs in this formula have naturally-occurring amounts of calcium, manganese, niacin, selenium, and zinc.

Recommendation: Take one capsule with a meal three times daily. For the relief of nervousness, edginess, and restlessness due to the feelings of fatigue.

CAUTION: Pregnancy & Nursing.
