

Silver Shield Gel with Aqua Sol Technology

85 mL, Natural Antimicrobial Gel, Stock No. 4950-1

With the increase in both antibiotic-resistant germs and infectious diseases posing a threat of epidemic proportions in North America, Silver Shield Gel may become the only topical antimicrobial solution capable of reducing the length and severity of virtually any type of bacterial skin infection. Silver Shield is being heralded as the most powerful, virtually nontoxic, natural disinfecting antibiotic available.

Use Silver Shield Gel to help prevent infection of minor burns and cuts, to assist in wound healing, and as an emollient.

Did you know?

Silver is known to destroy over 650 disease-causing organisms. Silver compounds have been used medicinally for centuries. Greek and Roman societies stored liquids in silver-lined containers to keep them fresh. American settlers traveling west would put a silver dollar in milk to delay its spoiling.

The use of silver as medicine was widespread until World War II when antibiotics became the standard treatment for infections. However, due to overuse, many pathogenic organisms are becoming resistant to antibiotics. Recently, silver has been reintroduced as a natural alternative to fight bacterial infections at early stages of illness.

Research indicates that Silver Shield (with Aqua Sol Technology) is an effective immune

system booster, discouraging the growth of unwanted invaders.

NSP Advantage

85 mL. Natural Antibiotic.

Silver Shield Gel is a clear antibacterial gel product that also provides a moisturizing effect. Silver Shield Gel is made with food grade ingredients, contains no alcohol, and is safe for children. This product is manufactured with a patented process using Aqua Sol Technology and utilizes only the finest particle-sized colloids to ensure maximum bioavailability and efficiency.

Silver Shield Gel is non-toxic, safe and effective, and has no risk of causing heavy metal contamination.

This gel provides 24 ppm of bioavailable silver.

Ingredients: Medicinal Ingredients: Silver Shield Gel contains 98.4% Silver Shield Solution (purified water, silver) and provides 24 ppm of silver. Non-medicinal ingredients: Water, triethanolamine, acrylates/C10-30 alkyl acrylate crosspolymer.

Recommendation: Apply Silver Shield Gel directly to the skin as needed.

Risk information: Consult a health care practitioner if symptoms persist. Discontinue use if hypersensitivity occurs, such as skin rash.

Features & Benefits

- Provides powerful support to the immune system. Helps destroy numerous pathogens including bacteria, parasites, viruses, and fungi including yeast.
- Silver has traditionally been used for acne, ear infections, eczema, herpes, shingles, sinus infections, colds, flu, measles, epilepsy, tonsillitis, tetanus, rheumatism, and wounds.
- Silver Shield Gel uses only the finest particle-size colloids to ensure maximum bioavailability and efficiency.
- Silver Shield Gel is completely non-toxic and is free of heavy metal contamination.
- Also acts as a moisturizer for the skin.
