

Tea Tree Oil

DIN 02229866, 14 mL, Essential oil, Stock No. 1777-1

Tea Tree Oil is made by steam distillation of the leaves of the Australian tea tree.

One of the active constituents in tea tree, terpinin- 4-ol, has been found to be primarily responsible for the herb's germicidal activity.

Tea Tree Oil acts as a natural disinfectant, antiseptic, and fungicide to prevent infection and promote healing. Since Tea Tree Oil is so versatile, it has fast become a natural first aid in many families.

Did you know?

According to an article in *The Medical Journal of Australia*, tea tree oil has been shown to be equally effective in the treatment of acne as benzoyl peroxide and provides fewer side effects.

Scientific studies show Tea Tree Oil exhibits antibacterial and antifungal activity against *Candida albicans*, *Propionibacterium acnes*, *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Streptococcus pyrogenes*, *Trichomonas vaginalis*, and *Trichophyton mentagrophytes*.

NSP Advantage

14 mL Antiseptic oil / Essential Oil.
