

# Zambroza with Açai and Pomegranate, NPN 80008539

458 mL (15.5 oz), Liquid Antioxidant Tonic, Stock No. 4124-7  
(replaces Stock No. 4104-1)

## Improved preservative-free formula

Nature's Sunshine has harvested the most healthful fruits and nutritional supplements from around the world and combined them into one delicious, nutritious juice: Zambroza.

Zambroza contains ingredients rich in bioflavonoids and antioxidants. Bioflavonoids enhance vitamin C absorption and help maintain collagen and capillary walls. They also aid in the body's defense system. Antioxidants scavenge damaging free radicals and benefit virtually every organ and body system. Zambroza delivers a punch of antioxidant protection with a high ORAC (Oxygen Radical Absorbance Capacity) value (see graphs on next page).

Among Zambroza's key ingredients is mangosteen, a fruit found in the eastern tropical countries, such as Thailand. Mangosteen fruit and pericarp (peel) contain the greatest known supply of compounds called xanthones, which offer powerful immune and cardiovascular support.

Our **new and improved preservative-free formula** offers the additional taste and health benefits of açai berries and pomegranate juice.

### *Did you know?*

Antioxidants are getting increasing attention from the scientific community. Promising studies have led US authorities to state, "Eating plenty of high-ORAC fruits and vegetables — such as spinach and blueberries —

may help slow the processes associated with aging in both body and brain."

Xanthones have also attracted attention from scientists and researchers who are discovering that these compounds support the immune, structural, and digestive systems, and the brain and the skin.

Zambroza is full of healthful xanthones, bioflavonoids and powerful antioxidants.

Zambroza contains an extract of mangosteen fruit and pericarp, which contributes significantly to its high xanthone content.

### *NSP Advantage*

A unique blend of fruits and green tea extract providing superb antioxidant power for the maintenance of good health. Improved formula features the addition of açai and pomegranate in a great-tasting, preservative-free drink.

NSP carefully researched ingredients high in antioxidant activity and selected only the best. In a study conducted by an independent laboratory, Zambroza clearly outperformed other leading competitors in ORAC capacity (a measure of a product's antioxidant strength).<sup>1</sup> The extract of mangosteen fruit and pericarp used in Zambroza significantly contributes to its high xanthone content.<sup>3</sup> Another study showed that Zambroza is three times better in stimulating immune response than its closest competitor.<sup>2</sup>

*Ingredients:* Medicinal Ingredients: Each 15 ml (1/2 oz.) dose contains *Vitis vinifera* (red grape) fruit 1135 mg; *Vitis labrusca* (concord grape) fruit 1135 mg; *Vaccinium corymbosum*

# Zambroza with Açai and Pomegranate, NPN 80008539

458 mL (15.5 oz), Liquid Antioxidant Tonic, Stock No. 4124-7  
(replaces Stock No. 4104-1) **Improved preservative-free formula**

(blueberry) fruit 678 mg; *Garcinia mangostana* (mangosteen) fruit 374 mg of a 15:1 extract; *Rubus idaeus* (red raspberry) fruit 205 mg; *Vitis vinifera* (red grape) skin 102 mg of a 20:1 extract; *Garcinia mangostana* (mangosteen) pericarp 33 mg of a 4:1 extract standardized to 27.0% polyphenols; *Lycium barbarum* (wolfberry) fruit 16 mg of a 10:1 extract standardized to 10.0% polysaccharides; *Hippophae rhamnoides* (sea buckthorn) fruit 16 mg of 12:1 extract standardized to 8.0% flavonoids; *Camellia sinensis* (green tea) leaves 3 mg of an extract standardized to 80.0% polyphenols; *Vitis vinifera* (red grape) seed 3 mg of a 10-15:1 extract standardized to 83.0% polyphenols; *Malus domestica* (apple) fruit and skin 3 mg of an extract standardized to 75.0% polyphenols. Non-medicinal ingredients: purified water, açai (*Euterpe oleracea*) fruit flavour and concentrated pomegranate juice

**NOTE:** Açai berries and pomegranate juice provide additional health benefits to Zambroza, mainly from their antioxidant content. Both these ingredients had to be declared

as non-medicinal in order to keep the NPN the same as what was issued for the old Zambroza formula #4104-1.

**Recommendation:** Take 15 ml (1/2 oz.) 1 to 2 times daily.

**Risk Information:** Do not take more than the recommended dosage. Consult with a health care practitioner prior to use if you have high blood pressure, a bleeding disorder or in combination with anticoagulant or antiplatelet medication, or if you are pregnant or breast-feeding. For prolonged use consult a health care practitioner.

**Contra-Indications:** Grape seeds are contraindicated in patients with known hypersensitivity.

**Refrigerate after opening. Shake well before using.**

## Features & Benefits

- A source of antioxidants for the maintenance of good health.
- Enhances the immune system and promotes overall health.
- Has more than twice the antioxidant potential of its closest competitor.
